500 plants of any one variety strawberry can be bought at the 1000 rate. All plants will be shipped, transportation collect, unless postage is enclosed with order.

We can fill your order, large or small, with plants that will be fresh dug, true to name and packed to reach you in good growing condition.

Each shipment will bear a copy of certificate of inspection. Your order will be booked, if one third of your total order is enclosed, balance before shipment.

In all my experience I have never known when strawberry plants have been so scarce. This condition is due to the drouth of last year.
